

3M™ PPS™ Series 2.0 Vented Spray Cup System

Canadian Channel Toolkit

March 2024

3M™ PPS™ Series 2.0 Spray Cup System

A revolution in painting productivity and quality started when we invented the 3M™ PPS™ Paint Preparation System – the world's first disposable paint cup system. With a constant mission of improving our paint shop solutions in the market, we then invented 3M™ PPS™ Series 2.0 – all to make your painting process more efficient and cleaner, providing the convenience you demand in a busy shop.

Now, we're bringing you another painter-approved solution – the 3M™ PPS™ Series 2.0 Vented Spray Cup System. A ready-to-use system that gives you the results you expect from a premium vented cup with a consistent material flow each time. Whether you use our lined or vented cup options, you can be confident in the quality of your paint job – no matter which system you choose.

Convenience in a cup –
now vented.

3M™ PPS™ Series 2.0
Vented Spray Cup System

3M™ PPS™ Series 2.0 Vented Spray Cup System

A successful paint job includes a mix of reliable tools, your undeniable expertise, a seamless transition from prep to paint – and unwavering confidence. A pursuit of perfection only painters understand.

When high standards are the expectation, you need equipment that delivers consistent results. The 3M™ PPS™ Series 2.0 Vented Spray Cup System - bringing the advantages you expect from a premium vented cup with the proven technology of the first disposable spray cup system in the world.

Consistent material flow is a must in a world of demanding cycle times and high-quality finishes. It's a spray cup system that provides easy cleanup with the performance and trust 3M aims to deliver. With pre-installed valves and filters and a thoughtfully-formulated cup design, you can spend more time on the things that matter.

After all, time wasted means less profitability for your shop. With the 3M™ PPS™ Series 2.0 Vented Spray Cup System, and our full range of paint application solutions, you can continue **spraying the smarter way.**

Key Features and Benefits

Ready to Use Instantly

When speed and efficiency are vital, grab-and-go tools can make all the difference. With built-in filters and ready-to-use vents, minimal assembly is required before stepping into the booth.

Consistent Material Flow

Quality paint jobs matter, especially when your reputation is on the line. From start to finish, these vented spray cups provide a consistent material flow, even down to the final milliliters (oz).

Confident Cup Design

Make the most of your time in the booth by using our largest cup (950 mL / 32 oz) – one of four different sizes available. A sturdy but flexible cup design allows you to put your mind at ease when temporarily storing leftover paint. With no reusable parts, it's like spraying with a new cup every time.

Paint Application Expanded

When you buy into 3M Science, you are getting innovation, performance, and efficiency. These threads are carried all the way through our products for the paint shop, allowing you to choose the right tools for the job. With a premium spray gun, disposable lined spray cups, removable nozzles – and now vented spray cups – 3M's suite of paint application tools is truly unmatched.

System Components

Vented Lids

Comes with filters welded in place so there's no time spent assembling. Available in two sizes (large/standard and midi/mini) and two filter sizes (125 and 200 micron).

Vented Cups

Clear cups are printed with mix ratio charts, allowing you to mix paint right in the cup. Easy-to-see icons clearly indicate whether the vent is open or closed. Available in four sizes – large (950 mL), standard (700 mL), midi (400 mL), and mini (250 mL).

Sealing Plugs

Excellent for temporary sealing and protection of coatings. Keep filters wet for longer life, fewer lid replacements. 32 sealing plugs within 3M™ PPS™ Series 2.0 Vented Spray Cup System Kits.

Sales Guide for 3M™ PPS™ 2.0 Vented Spray Cup System

Introducing a new ready-to-spray solution.

Why 3M™ PPS™ Series 2.0 Vented Spray Cup System?

Ready to Use Instantly

When speed and efficiency are vital, grab-and-go tools can make all the difference. With **built-in filters** and **ready-to-use vents**, minimal assembly is required before stepping into the booth.

Confident Cup Design

Make the most of your time in the booth by using our largest cup (32 oz / 950mL) – one of **four different sizes** available. A sturdy but flexible cup design allows you to put your mind at ease when temporarily storing leftover paint. With no reusable parts, it's like spraying with a new cup every time.

Paint Application Expanded

When you buy into 3M Science, you are getting innovation, performance, and efficiency. These threads are carried all the way through our products for the paint shop, allowing you to **choose the right tools for the job**. With a premium spray gun, disposable lined spray cups, removable nozzles – and now vented spray cups – 3M's suite of paint application tools is truly unmatched.

Advantages of the 3M™ PPS™ Series 2.0 Vented Spray Cup System

Ready to spray out of the box, pre-assembled filter and vent, two-piece design (lid and cup)

Series 2.0 connection with the ability to switch between vented and lined spray cup

Designed to squeeze without cracking the cup

Easy-to-use vent that comes assembled and in the closed position

Comes in 4 different sizes to choose the right cup for the job, which means a cost effective workflow

Choose the Right System for the Job

The 3M™ Performance Spray Gun was designed specifically to deliver best-in-class performance while saving you time with our replaceable nozzle technology. 3M™ PPS™, the industry's first disposable spray cup system, sets the worldwide standard for versatility and dependability. With both lined and vented cup options available, painters everywhere can choose the right cup for even the most difficult paint jobs and coatings.

- 3M™ Performance Spray Gun
- HVLP Atomizing Heads
- Fine Finish Atomizing Heads
- PPS™ Series 2.0 Lined Spray Cups (5 sizes)
- PPS™ Series 2.0 Vented Spray Cups (4 sizes)
- PPS™ Series 2.0 UV Spray Cups (lined and vented)

Product Selection and Use: Many factors beyond 3M's control and uniquely within user's knowledge and control can affect the use and performance of a 3M product in a particular application. As a result, customer is solely responsible for proper evaluation (including, but not limited to, fitness for purpose and suitability of application), selection, and use of 3M products. Safety products should always be selected and used in accordance with all applicable regulations and standards (e.g., OSHA, ABE, and others), after conducting a proper hazard assessment. Failure to properly evaluate, select, and use a 3M product may result in injury, violence, death, and/or harm to property. Choose of used atomizing heads, residual paint/bodily fluids, used containers/materials, and PPS in accordance with local regulations.

Warranty, Limited Remedy, and Disclaimer: Unless a different warranty is specifically stated on the applicable 3M product packaging or product literature (in which case such warranty governs), 3M warrants that each 3M product meets the applicable 3M product specification at the time 3M ships the product. 3M MAKES NO OTHER WARRANTIES OR CONDITIONS, EXPRESS OR IMPLIED, INCLUDING, BUT NOT LIMITED TO, ANY IMPLIED WARRANTY OR CONDITION OF MERCHANTABILITY, FITNESS FOR A PARTICULAR PURPOSE, OR ARISING OUT OF A COURSE OF DEALING, CUSTOM, OR USAGE OF TRADE. If the 3M product does not conform to this warranty, then the sole and exclusive remedy is, at 3M's option, replacement of the 3M product or refund of the purchase price.

Limitation of Liability: Except for the limited remedy stated above, and except to the extent prohibited by law, 3M will not be liable for any loss or damage arising from the 3M product, whether direct, indirect, special, incidental, or consequential (including, but not limited to, lost profits or business opportunities), regardless of the legal or applicable theory asserted, including, but not limited to, warranty, contract, negligence, or strict liability. 3M and PPS are trademarks of 3M Company.
