

Excellent Emissions Performance

NISSENS EGR VALVES

*Product reliability, long life-span
and an attractive price level.*

We know the EGR valve function importance for the vehicle emissions performance and for the engine harmonious combustion. And we know what is important for the spare parts aftermarket. **That is why Nissens EGR Valves have been designed for excellence and to perfectly match the needs of the market.**

In our valves we apply only the industry highest rated materials including high nickel percentage alloys to ensure superior heat resistance and durability in extreme temperatures. We fully test the valve's critical functions ensuring its proper calibration, fit and reliable operation in vehicle. **Quality of Nissens EGR valves matches OE.**
